

Subject: Resignation Letter

Dear Tarek,

I hope you are well. I am writing to formally resign from my position as Django & ReactJS Developer at dreamlabit, effective August 02, 2025.

It has been a great experience working with you and the team over the past two years. I am truly grateful for the support, opportunities, and learning environment that I've had during my time here. These two years have helped me grow professionally and personally, and I deeply appreciate the guidance and cooperation I received.

After careful consideration, I have decided to explore new opportunities that align with my future goals. This was not an easy decision to make, but I believe it is the right step forward for my career at this point.

I am committed to ensuring a smooth transition before my departure and am happy to assist with the handover process or any other help the team may need during this period.

Thank you once again for everything. I hope we stay in touch and I wish you and the entire team continued success.

Best regards,

Rasel Mahmud
